Non-cooperative networks: Mid-term evaluation results

Tuesday 7th of November, 2017 - Prof. Guido Proietti

Rating scale is from 0 to 30. If you got a grade of at least 14, then you have a chance to improve it through a quick-oral examination (1 question) that will be held on Wednesday November 15th, 2017, at 13.00 in the teacher's room. If your grade is below 18 and you decide not to improve it, then you will take the full-oral examination (2+ questions) in January 2018 or later. If your grade is at least 18 and you decide not to improve it, then it will be registered in January 2018 (possibly by combining it with the "Social Networks" grade, in case you are taking the 6 CFU exam - in this case, the registration can take place later).
